ABOUT ME

I am a full-stack developer skilled in .NET technologies and React. I build dynamic user interfaces with React and develop reliable server-side applications using C#. I have experience creating and maintaining RESTful APIs and working with databases using Entity Framework Core and SQL Server. I understand software development practices like Agile, Git for version control, and CI/CD pipelines. I enjoy learning new technologies and staying updated with the latest trends.

WORK EXPERIENCE

[01/12/2022 – Current]

Junior Software Developer

B2A Technologies

City: Jaysingpur | **Country:** India

- Developed high-performance APIs using .NET technologies, enhancing B2A Technologies platform efficiency.
- Optimized webpage performance by implementing lazy loading and efficient state management in React and .Net, enhancing client user experiences and achieving a 15% faster load time.
- Contributed to the development of front-end components using React.js, resulting in a 20% increase in user engagement by enhancing interactivity and responsiveness.

EDUCATION AND TRAINING

[01/06/2015 – 01/05/2018]
